

Maricela Chavez, MHA, CST Program Director

Biography

TVCC alumni with a certificate as a Surgical Technologist and an associate degree. This career created my passion for surgery while working in the OR for over twenty years.

I joined the TVCC faculty in 2014 and began teaching as the surgical technology instructor and clinical coordinator that quickly revolved into the role as the Program Director. Working in the education system encouraged me to continue my own education to better myself and my students. I currently hold a bachelor's and Master's in Health Care Administration from Grand Canyon University.

Specialties

I am a confident, enthusiastic individual devoted to healthcare and sharing my expertise in surgical technology and education while focusing on leadership skills. I am always interested in gaining more knowledge when the opportunity arises and dedicated to work towards fulfilling organizational goals. I would love to help guide new personnel teaching or leading in a surgical technology program.
